Doc #: 20-34 Filed: 02/1

Can you reach out to your AP leader to insure the complete amount is same day wired today. It was supposed to make it into the account last week on Friday, but it never arrived.

Let me once you receive confirmation that the full amount has been wired this morning.

My team will also update me the moment they see it reflected on their side.

4:08 AM

Same day wires should be used for today's completion. Whatever that comes in beyond the \$2M will be returned to Qantas within 24 hours.

My team will just walk into the physical branch to schedule transfer.

\$1M from the alternative account
2x \$500k from standard account
